

Senior / Principal Ecological Consultant

Bristol based role.

We also encourage a balance of working from our offices and working from home.

Full or part-time hours (minimum of 4 days per week)

The company

At Logika we work as one team alongside our sister companies Noise Consultants Ltd and Air Quality Consultants Ltd; we see flexibility and collaboration as essential to our continued success and we manage the Group of companies as if a single entity. We provide people with the opportunity to progress and work on interesting projects with a wide range of valued clients who operate in a variety of sectors.

The role:

We are seeking a Senior / Principal Ecological Consultant with appropriate qualifications and at least 5 to 10 years' experience in ecological consultancy to join our growing team. This is an exciting opportunity to join a forward-thinking solution focused environmental consultancy, specialising in green infrastructure design, that seeks to ensure that all that we do has sustainability at its heart.

You will also gain the opportunity to get involved in other projects across the group.

About you:

You will be responsible for undertaking and supervising ecological surveys, including Phase 1 habitat surveys and preferably for one or more protected species. You will also be expected to manage ecological projects or tasks, liaise with clients and sub-consultants, and help to prepare fee proposals and author technical reports including most particularly ecological impact assessment reports. Furthermore, you will be given the opportunity of developing a Logika ecology team in the Bristol location. In doing this they will work with our existing ecology team that is based in our London office and a team of approximately 25 other environmental consultants that are already based in our Bristol office.

It is the philosophy of Logika that the role of an environmental consultant should be to ensure that environmental issues are at the heart of development design. Therefore, it is of importance that you should have a creative streak, being able to work with our landscape designers to embed ecological design solutions into development proposals to ensure the meeting of Net Biodiversity Gain requirements whilst also helping to achieve other green infrastructure ambitions such as reducing flood risk and improving air quality.

Skills and Experience:

- Previous experience of ecological consultancy work (approximately 5-10 years)
- A degree in a relevant subject
- Strong ecological survey skills including phase 1 habitat but hopefully also being a specialist in one or a number of protected species, birds or flora
- Excellent Ecological Impact Assessment report writing skills and experience, including as part of Environmental Impact Assessment
- Appropriate Assessment including production of AA Screening Reports and Habitats Regulations Assessment Reports
- Excellent knowledge of the legislative and planning system with regard biodiversity
- Awareness and experience of project financial control and management
- Business development experience including through the production of proposals to respond to tender opportunities and by presenting to prospective clients
- Excellent communication skills and experience in a client facing role
- Ability to supervise and motivate others

What we offer:

We are a growing Group of companies that wants to do things differently, with an exciting future that will help you shape and realise your ambitions. You will have a great opportunity to work with a talented and dedicated team and be able to develop your career as the company grows.

We ensure we can support our employees through offering wellbeing programmes and policies that support individuals. These include flexible working, trained mental health first aiders and readily available support through our Employee Assistance programme.

Furthermore, along with a competitive salary, we offer a benefits package which includes an enhanced pension scheme, death in service life cover, discretionary bonus scheme and much more.

Logika Consultants Equal Opportunities Policy is to ensure that no applicant receives less favourable treatment on the grounds of age, disability, gender, reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.
